

Electronics Designer

Hyvinkää

Reference Number:

We are now looking for electronics designers to join our team of experts!

The tasks consist of a wide range of design and specialist work. You will play an important role in product maintenance, manufacturing and field quality control, ensuring exceptional product performance, reliability and standards compliance. You would be offered a position in an exciting and international working environment where you have the opportunity to develop and create a career of your own!

To work as a design engineer you will need to:

- A university degree in electrical engineering, electronics or a related field
- 5+ years of relevant work experience (R&D, design)
- Experience in electronics design, both layout and circuit design
- Experience in EMC issues would be an advantage
- Strong communication and interpersonal skills
- Ability to work effectively with multidisciplinary teams and stakeholders
- Good written and oral communication skills in English, Finnish is an advantage

Join a professional team with room to grow and develop and create your own career path. We also offer our employees benefits such as lunch, sports and cultural benefits, as well as a leisure accident insurance. For the more sporty, we also offer the possibility of a company bike benefit.

Interested? Great! Please send us your application with salary requirements by **7.1.2025** at the latest. We process applications during the application period, so please act fast!
